

Detailed program

Time	Java	.NET	System i	Development Process & Methodology	Emerging Technologies	
09:00 - 09:10	Introduction by Thomas Zetterberg					
09:10 - 10:00	Kent Beck Responsive Design					
10:15 - 11:00	Thorbiörn Fritzon Java™ SE 7	Robert Folkesson Silverlight Futures: Building Business Focused RIA	George Farr IBM i Tools and compilers latest announcements and future strategy direction.	Neal Ford Ancient Philosophers & Blowhard Jamborees	Chris Hedgate From good to great developer - why does it matter and how can we achieve it?	Erik Stenman Erlang: Good News, Bad News, How to Win Big
11:15 - 12:00	Jonas Bonér State, You're Doing It Wrong: Exploring Alternative Concurrency Paradigms on the JVM	Marcus Widerberg Refactoring .NET code towards readability: From old mess to maintainable beauty!	George Farr Getting productive with Rational tools for IBM i	David Harvey When Agile hits the wall	Agneta Jacobson Be Smart: Getting Good Software Quickly and at Low Cost	John Davies Cloud Computing: Developing and Deploying applications in the cloud
12:00 - 13:00	LUNCH					
13:00 - 13:45	Peter Norrhall RIA Architectural Patterns	Mathias Olausson Improve your software quality with continuous integration and automated testing	Uno Ekberg What you can do with RPG	Neal Ford On the Lam from the Furniture Police	Ola Ellnestam Software development Team Antipatterns	Don Syme An Introduction to Functional, Parallel and Asynchronous Programming with F#
14:00 - 14:45	Tom Stenström XTP - when performance and availability really matters	Patrik Löwendahl Dublin and .NET Framework 4.0 – The story of a service based architecture	Don Denoncourt Approaches to Application Modernization	Laurent Bossavit Building Your Own Agile Process	Niclas Nilsson Outside in - black belt TDD/BDD	Ola Bini Jruby in Action
14:45 - 15:15	BREAK					
15:15 - 16:00	Gavin King Introduction to Web Beans	Magnus Mårtensson ASP.NET MVC Framework	Don Denoncourt Beyond RPG: Confessions of a Polyglot System i Programmer	Jens Östergaard SCRUM - Failure Modes	Emily Bache Clean Code	Björn Beskow Agile Enterprise Development with Groovy and Grails
16:15 - 17:00	Niklas Gustavsson REST made simple with Java	Guy Nirpaz Building Scalable Applications in .NET	David Malmgren From Green to Dream	Niclas Nilsson The unintuitive parts of agile	Rickard Eriksson Fokus på kundvärde och teamutveckling - så utnyttjar vi Lean principerna för framgång	Anders Janmyr Time for smalltalk
17:15 - 18:00	Mårten Haglind Filthy Rich Enterprise Clients	Joakim Sundén ALT.NET - Are You Ready for the Red Pill?	Andreas Steen Test automation - Why, When & How?	Derek F. Holt Agile at Scale	Daniel Brolund Start paying your Technical debt!	Marcus Ahnve The Simplest Thing That Could Possibly Work
